Industrial Power Tools

ABOUT US

Industrial Power Tools is the leading supplier of carbide scarfing tools for every industry. Over the years we've broadened our product base to include most consumables for various industries such as roll tooling, cut-off blades, impellers, casings, and end-prep tools.

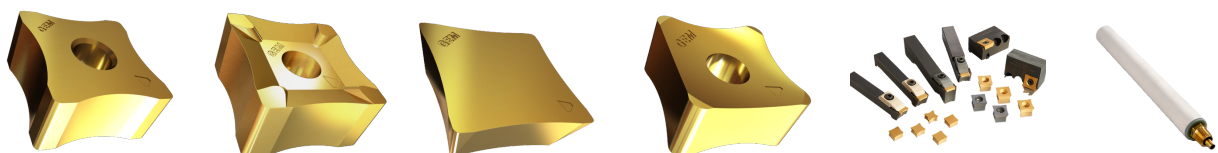

Today, 75 percent of our business comes from a core group of legacy clients: a testament to our commitment to building strong, long-term working relationships.

Mission:

For many years, we have been more than just a cutting tool provider. We develop and supply the technologies, processes, and supports that manufacturers depend on to maximize productivity and profitability.

Vision:

We began Industrial Power Tools with one focus: to build a company that can compete with other large firms while operating with the flexibility and customer focus of a small, family-run business.

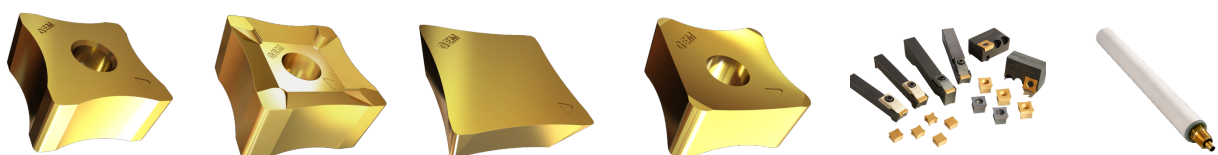

INDUSTRIES WE WORK WITH

Industrial Power Tools specifically supplies application-based scarfing tools to provide top machining quality on different materials such as cast iron, aluminum, steel, stainless steel, non-ferrous materials, and many other exotic materials.

Our range of scarfing tools are popularly used in different areas of application to meet the nature and operation requirements of milling, boring, turning, drilling, and die & mold. Most of our product demands originate from suitable industries such as:

- Automobile
- Aerospace
- Power Generation
- Oil & Gas
- Automotive
- Textile

Industrial Power Tools
